

US - EU Exports

TMF Lychee Farm

Product Brochure

"We consistently supply lowest C&F shipments from USA to EU ports"

- Established in the 1980's, **Arvila LLC** has dedicated itself to sustainable production, regenerative farming principles and optimizing long-term trade between the USA and EU community ... providing "best quality for best trade value".
- **Arvila LLC** specializes in premium quality, Global Gap and Organic grown produce ideal for US export to EU markets.
- **Arvila LLC** trade concept, is based on dual consideration - supporting growers with new markets and international trade advantages ... and providing our buyers with best pricing, savings and most reliable services and logistics.

"We are an exclusive exporter to many large regional US growers, with more logistical options and lower C&F pricing"

*"We **DO NOT** buy, sell, grow or trade in GMO (Genetically Modified) Fruits or Foods"*

- **Arvila LLC** promotes international trade to EU markets via its subsidiary export company - **TMF Florida LLC**.
- **TMF Florida LLC** introduces a much needed new brand with improved export industry business and logistical models. Our team provides a permanent "hands on" approach, and is closely involved in all phases of shipping logistics.
- **TMF Florida LLC** is located in South Florida, USA - providing direct trade routes from major east coast growing regions, and an ideal trade HUB for tropical fruits of the Americas.

Lychees !!!*

"We export worldwide"

At **TMF Florida LLC**, we are not only export and logistic specialists but also **growers** of our own tropical fruits.

Situated in the uniquely favorable area of southern Florida, our groves - the **St. Martin Plantation** - were established to provide us with one of the most desirable tropical fruits on the world market ... **Lychees**.

Our lychee varieties are best suited to our Florida climate, and have proven to be superior in freshness, sweetness and flavor to any other lychees of non-US provenience.

Grown under strict USDA guidelines, our lychee fruits offer superior quality in comparison to other regions.
